Dear *(Mr/Ms)* [Client.LastName],

Thank you for meeting with us to discuss your company's software project requirements. Attached is our detailed software proposal for your consideration and approval.

At [Sender.Company], we know that creating client-oriented software takes a mixture of technical excellence and clear communication.

Our firm hires only the very best to ensure you receive both. We know that every client is unique, so we strive to deliver an individual, innovative, and affordable proposal every time, following through with an outstanding delivery that is both on time and within budget.

We have more than *(Years of Development)* of development in this area and our previous clients include:

- *(Previous Client 1)*
- *(Previous Client 2)*
- *(Previous Client 3)*

Please let us know if you would like to get in touch with these existing clients to hear their testimonials about [Sender.Company]. You can learn more from our website at [Sender.Website], where you can view our portfolio of previous work and our highly-trained staff.

We also pride ourselves on our after-sales client-care including our guarantees, staff training, and onsite and offsite support.

Finally, we realize that you are very busy and wanted to thank you in advance for your time spent reviewing our business proposal.

Yours Truly,

[Sender.FirstName] [Sender.LastName]

[Sender.Company]

Executive Summary

The modern business world has been irrevocably shaped by technology, and for good reason. Many long-standing problems in industries like *(Client.Industry)* can be solved with the right program. It's not enough to simply use pre-existing solutions, however. Companies like [Client.Company], who take the next step and work to produce innovative solutions, are the businesses that have taken the lead over and over again.

To help your company achieve *(Client.Mission.Statement)*, we will do all of the following:

Create *(Main focus of the business proposal)*

After a thorough but efficient preparation period, our team will create *(focus of the proposal)*.

We will build this with a focus on *(Client Problem 1)*, *(Client Problem 2)*, and *(Client Problem 3)*. The resulting software will achieve:

- *(Goal 1)*
- *(Goal 2)*
- *(Goal 3)*

Develop *(Additional tools needed for the solution)*

Through clear communication and regular meetings with your planning team, we will develop *(additional tools or programs)*.

We will take industry trends and your unique needs into consideration to ensure that *(the tools mentioned above)* will fit your goals and serve your businesses.

Integrate *(Unique or external tools)*

In coordination with *(client's partners/on-site IT)*, we will take care to integrate *(important industry tools like social media or specialized software)* with this

solution. This will help maintain the services and systems you already use, smoothing the transition period.

(Method of completing the project proposal)

We will *(achieve goals listed above)* by utilizing *(your business processes)* and *(your team's organizational style)*.

These processes allow us to *(USP of your business)*.

As a result, our team members will complete this project in *(time proposed)*.

As accepted by Company

Milestones and Reporting

Milestone	Tasks	Reporting	Hours	Date
1.1	Analysis and design stage			
1.2	Architecture design			
2.2	Create database			
2.3	Import existing client data			
2.5	Create GUI			
2.6	Integration with Outlook			
2.7	Integration with clients software			
2.8	Integration with smartphone network			
3.1	Port to iPhone environment			

Milestone	Tasks	Reporting	Hours	Date
3.2	Alpha testing desktop application			

Deployment

Launching new software requires focus and dedication. To ensure that your launch goes as smoothly as possible, we will *(describe launch procedures, including any assistance your organization provides during the process)*.

Documentation

We want to make sure you never have any questions about the product after launch. To guarantee you understand your new software, we put together:

- *(Documentation Type 1)*
- *(Documentation Type 2)*
- *(Documentation Type 3)*

If you have any questions, please let us know and we will clarify with additional documentation.

Support

Describe your standard support agreement.

At [Sender.Company], we pride ourselves on our customer service. If you ever have problems with your software, our software developers will *(Customer.ServicePolicy)*

Testing

We pride ourselves on always providing our clients with the best possible product. To make this happen, we will *(Testing Procedure 1)*. We then *(Testing Procedure 2)*. Finally, after the launch of the product, we study what is working and what isn't, then tweak things until you are happy with the final result.

Warranty

Include your standard warranty information here, or use the text below after review from your legal team.

We offer a *(Time period)* day warranty from the date of *(acceptance of our software proposal/completion of the project)*. During the warranty period, [Sender.Company] will take the necessary steps to rectify any software malfunctions or operation failures that occur and ensure that the software operates as intended. Even after the expiration of the warranty, we remain open to questions and concerns if you need further assistance.

Training

Describe how you will train your potential client on their new software.

To ensure that all users understand your new software, we *(describe training procedure)*.

Pricing and Payment Terms

Pricing and payment should always come at the end of the proposal. These are the terms your client will agree to should they sign the document, so be certain that your math is sound and your numbers are accurate. This is where you list any potential discounts or deals, along with the cost of the project as a whole and how funds will be distributed.

Our fee for seeing the project through from start to completion will be *(Fee)*. You can pay via credit card, bank transfer, and PayPal. The breakdown of each aspect of the project is as follows:

Software development, calculated at an hourly rate of *(Rate)*: *(Amount)* Launch and support, calculated at an hourly rate of *(Rate2)*: *(Amount2)*

Documentation, calculated at *(Calculation Method)*: *(Amount3)*

Proposed payment terms	Proposed payment terms
25% (25%)	Paid on acceptance of this proposal and signing of our software development agreement.
25% (50%)	Paid at completion of Milestone 1.
25% (75%)	Paid at completion of Milestone 2.
15% (90%)	Paid at completion of Milestone 3.
10% (100%)	Paid at completion of Milestone 4.
